PROSPECTUS ASSIGNMENT
CRD 244: POLITICAL ECOLOGY OF COMMUNITY DEVELOPMENT
RYAN E. GALT
UC DAVIS
WINTER 2010

ASSIGNMENT OVERVIEW
A term paper related to course themes and your research interest(s) is required for the class. I expect you to start thinking about your term paper from the start of class, and two weeks I want to see a prospectus. Your prospectus should include the following elements:

1) A brief statement of your topic. Specify in 2-3 paragraphs the current version of your topic. What do you plan to write about? What approach(es) do you plan to take? Which major sources do you plan to use?

2) A tentative structure specified in an outline. How do you plan to organize your paper? This does not need to be a very detailed outline at this point, but you should lay out the sections into which you anticipate dividing your paper.

3) Problems and questions in relation to your paper that concern you. Try to pinpoint the next steps you’re planning to take and the questions that most immediately occupy you.

DUE DATE
Your prospectus is due on Jan. 20, 30 minutes before class on SmartSite.
